c. Penjelasan dari code dan output

Kode HTML ini berfungsi sebagai kerangka dasar untuk membuat struktur landing page portofolio yang terdiri dari formulir kontak, daftar proyek, deskripsi diri, navigasi, dan profil di bagian jumbotron. Tujuan penggunaan framework Bootstrap 5 dalam kode ini adalah untuk menjaga tata letak website tetap rapi dan responsif secara otomatis, sehingga tampilan tetap optimal saat diakses melalui perangkat dengan ukuran layar yang berbeda.

Selain itu, CSS berfungsi sebagai pemberi gaya visual untuk meningkatkan pengalaman pengguna dan estetika. Pengaturan warna latar biru muda #D3E2EF diterapkan pada beberapa bagian melalui file style.css untuk memastikan konsistensi desain yang konsisten. Sementara pengaturan khusus untuk elemen carousel, seperti penggunaan cover sebagai pengaturan objek, pembatasan lebar 800 piksel, dan pemberian radius batas tepi, dilakukan untuk memastikan gambar proyek terlihat profesional, proporsional, dan memiliki sudut yang estetis.
